SKILLS

Game Dev: Unity (in progress) — scenes, GameObjects, MonoBehaviour, Prefabs, basic physics & UI

Languages: C# (primary), Java 17+, SQL (PostgreSQL)

Core: OOP, SOLID basics, clean architecture habits

Tools: Git, GitHub, Unity Editor, Rider / Visual Studio

Additional: REST APIs, Spring Boot (project background), basic TypeScript/JavaScript

LANGUAGES

English: B1 (actively improving)

Russian/Belarusian: Native

AVAILABILITY

Unpaid internship: Yes

Full-time: Yes (office/hybrid)

Dana Stukalova

Junior Unity Developer

SUMMARY

Aspiring Junior Unity Developer with a strong OOP foundation and hands-on experience designing game logic. Currently building **two Unity projects** (portfolio release planned by the end of the month). Looking for an internship / junior role on a Unity team to grow as a gameplay programmer.

PROJECTS

Unity Portfolio Projects (×2) | Unity, C# — In development

- Building two Unity projects focused on gameplay programming, Prefabs, and player interaction loops
- Practicing MonoBehaviour scripting, component-based design, and iterative playtesting in the Editor
- Portfolio links and playable builds will be published by the end of the month

The Witcher: Core Logic Engine | Java 17, OOP

GitHub: github.com/top-secret666/the-witcher

- Designed a modular game logic system using OOP (entities, interactions, rules, game state)
- Separable, extendable mechanics — transferable to Unity scripting

Food Delivery Platform (Microservices) | Spring Boot, Kafka, Keycloak, Next.js

GitHub: github.com/top-secret666/rgv

- Multi-service system with REST APIs, Keycloak/OAuth2, Kafka, and Docker Compose
- Shows modular design, debugging across services, and shipping a working stack end-to-end

Genomic Data Analysis (Neural Network) | Python, TensorFlow/Keras

- **Award:** Winner of the Scientific and Technical Conference
- Co-developed a neural network model to assess cancer risk from genomic data

EDUCATION

Vitebsk State Technological University (VSTU) | 2023 – 2027
(Expected)

Faculty: Information Technologies and Robotics (FITR)

Specialization: Information Technologies (Software Engineering)
